-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed have been fully considered but they are not persuasive.
2. Objection to the spelling is withdrawn.
3. Applicant argues that Moss does not teach feeding forward with the signaling because the output of 16 includes the signaling information while applicant's output does not include the feedforward information. This is not persuasive since applicant did not claim that their output does not include feedforward information.
4. Applicant argues that the office changes its definition of control signal in Moss from signaling to output of control circuit 64. This is not persuasive since signaling in fig. 3 of Moss is one of the outputs of the control 64 as signaling is the output of 70 which is within 64.
5. Applicant argues that the output of control circuit 64 is an output of a feedback loop and hence is not feedforward. This is not persuasive. Moss in figure 3 shows that element 70 has a top output to 66 which outputs to 22. Moss also shows that the signaling output of element 70 skips over many elements (such as the elements in the chain after 22 such as 24, 14, etc.) before outputting to element 16 and hence the signaling output is a feedforward output.
6. What is meant by outputting through 16 via 22 is that the symbol data stream from 20, 22 are eventually output in 16 via various intermediary components such as 24, 14, etc.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 2631

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1-5, 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moss EP1104140A2. See prior action for details.

9. Claims 6-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moss EP1104140A2 in view of Kaneko 6009073. See prior action for details.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
